PROFILE

I am an ambitious, experienced and creative Film Editor, working Offline on both Avid and Premiere. I studied at Giuseppe Bertolucci's 'Officinema' course on Film Editing at the Cineteca di Bologna in 2008.

I'm currently working on "7 Keys", the directorial feature debut of Joy Wilkinson, produced by Cassandra Sigsgaard and Dylan Rees for Key 3 Films.

The latest film I've cut, "Redenzione (eng. Redemption)", an Italian feature drama directed by Maria Martinelli for Kamera Film, was in the official selection at the 40th edition of Turin Film Festival and had its world premiere there.

In the past thirteen years I have gained a broad range of experience from editing features (documentaries and drama) to working on animated television series (Netflix and ITV Global) and cutting numerous short films.

What I'm most passionate about is the storytelling part of my job, across features and television, narrative is what I do best.

I am most interested in working in high end drama and features, telling meaningful stories with a pinch of comedy and sarcasm is my final goal and dream.
